

HAMMAD HASSAN

Full Stack Software Developer | Web & Desktop Applications

✉ hammadzulfiqar648@gmail.com • ☎ +92 326 2502752 • 📍 Lahore, Pakistan
🌐 linkedin.com/in/Hammad Hassan • 📄 github.com/hammadhassan798

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Developer with hands-on experience developing scalable web and desktop applications using ASP.NET, C#, React, JavaScript, Python, Node.js, Express.js, MongoDB, PostgreSQL, and SQL Server. Proficient in designing RESTful APIs, implementing secure authentication, managing databases, and building responsive user interfaces using modern software development practices. Strong problem-solving and analytical skills demonstrated through coding competitions and HackerRank SQL certifications. Passionate about delivering clean, maintainable, and high-performance software solutions that solve real-world business challenges.

EDUCATION

Bachelor of Science in Computer Science

University of Engineering and Technology (UET), Lahore

2027

TECHNICAL SKILLS

Languages: C#, Python, JavaScript, SQL, HTML, CSS, C, C++

Desktop: Windows Forms (WinForms), ASP.NET Core Web API Framework

Web Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Express.js, Next.js

Backend: Python (Flask / REST APIs), Node.js, C #

Databases: SQL Server, MongoDB ,PostgreSQL

Tools & Platforms: Git, GitHub, Visual Studio, VS Code

Concepts: OOP, REST APIs, MVC, CRUD Applications, Database Design

PROJECTS

Library Management System — C# · WinForms · SQL Server

- Built a full-featured desktop application for managing books, members, and borrowing records.
- Implemented CRUD operations using ADO.NET with SQL Server as the backend database.
- Designed an intuitive WinForms UI with search, filtering, and report generation features.
- Applied object-oriented programming principles for maintainable and scalable code structure.

Student Record Management System — C# · WinForms · SQL Server

- Developed a desktop app to manage student data including grades, attendance, and enrollment.
- Used SQL Server for data persistence with parameterized queries to prevent SQL injection.
- Implemented login authentication and role-based access control for admin and staff users.

E-Commerce / Full-Stack Web Application — React.js · Python · MongoDB

- Built a responsive multi-page web application using React.js with component-based architecture.
- Developed a RESTful backend API in Python handling authentication, product, and order management.
- Integrated MongoDB as a NoSQL database for flexible data storage and fast querying.
- Implemented JWT-based user authentication and protected routes on the frontend.

Portfolio Website — HTML · TailwindCSS · JavaScript ,Reactjs,Expressjs,Mongodb

- Designed and developed a personal portfolio website showcasing projects and skills.

- Built with vanilla HTML, CSS, and JavaScript with fully responsive design for all screen sizes.
- Deployed and hosted on GitHub Pages, linked to GitHub profile.

AI ChatBot/Full Stack AI integration

— [HTML](#) · [CSS](#) · [JavaScript](#) ,[React .js](#) , [python](#),[mongodb](#),[LLM integration](#)

- Designed and developed a personal AI ChatBOT named as Zahanat AI
- Built with vanilla HTML, CSS, and JavaScript ,react for frontend
- python for backend with fully responsive design for all screen sizes.
- Deployed and hosted on GitHub Pages, linked to GitHub profile.

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank SQL Certificate — demonstrated proficiency in SQL queries, joins, and database operations.
- Coding Competitions Participant — actively participated in multiple programming competitions, strengthening problem-solving and algorithmic thinking skills.
- GitHub Portfolio — all projects documented and published on GitHub (github.com/hammadhassan798).
